Analysis

Current Situation

- 1) You are currently under Jupiter - Rahu period from Oct'18 to Mar'21 and Jupiter is in your 10th house (Profession) of Gemini Sign which reduces the dignity (Great Enemy) of Jupiter. Jupiter rules 4th house (family) and 7th house (marriage, partnership) and Jupiter aspects yours 2nd house (money), 4th house (family) and 7th house (marriage). But, in Navamsa which measures the strength of a planet, Jupiter is favorably placed in its own sign, Kendra and with benefic planets.
- 2) Jupiter is giving you kind of mixed results more towards the positive side. Jupiter has supported you in marriage (You got married in Jupiter MD and Jupiter PD) and in Jupiter MD and Venus PD, you met your boyfriend. Jupiter doubled your salary with support of the moon which rules the house of gain.
- 3) Rahu is in the house of Saturn and it is situated in your 5h house (intelligence & child) and Saturn which owns this house is sitting at 12th position (loss). Rahu has an influence on the 9th house (luck), 11th house (gain) and 1st house (self). So, this position of Rahu is bad for progeny/kid and it is also not letting you have the support of Luck and so you gain is less and you are struggling very hard in all these matters, your struggle has increased from Oct'18
- 4) This can be confirmed from Ashtakavarga number as well, the lowest two houses in the table are 10th house (profession) and 5th house (intelligence)

Past Experiences

- 1) You took birth within 15-20 days of the Eclipse, in the **solar eclipse** Rahu, Moon & Sun align together. There is a habit inside you of thinking too much due to the proximity of Rahu and Sun with Moon (mind). Rahu creates unnecessary fear in your mind (Moon) and you think too much and get worried even when it is not required. Adopt an easy-going attitude, try to chill and relax a bit. This is the reason you miss sometimes big gain opportunities offered by Sun.
- 2) Saturn created an education gap early in your life (Jupiter MD and Saturn AD). Saturn rules your higher education house and so created hurdles while Jupiter was supporting.

Findings

- 1) Your Jupiter is working well but not able to give its full result due to placement in Gemini Sign. Jupiter has power to do good all in your life. So, you have to make Jupiter strong in your case, this is how you can do.
- 2) Rahu is in the Sign of Saturn and your upcoming period for Saturn Mahadasha will start from Mar'2021. **Saturn period starting from Mar'21 could be difficult for you and more frustrating as it created an education gap early in your life (Jupiter MD and Saturn AD). Saturn rules your higher education house and so created hurdles while Jupiter was supporting. You should also take good care of your health, there can be a problem of (obesity/sugar/bp) after Mar'21**

- 3) Mercury (Lagna lord) rules 10th house but sitting in enemy's sign with Saturn and Saturn is also in enemy's sign. Mars is also in enemy's sign which look at your 10th house. There will be challenges during Saturn period for 10th house. **Only benefic aspects of Jupiter from 10th house can control Saturn negative result. Sub period of Jupiter and Venus under Saturn will prove beneficial for you.**
- 4) You will be also in first phase of Sadhesati when Saturn Dasha will begin. Transit wise also Saturn is not in favor.

Answers

Q1.

Even after lot of hard work, I have not been successful in my career and going through significant amount of frustration and ambiguity to take a decision. Why is this?

This is merely because as of now you are in Jupiter-Rahu period from Oct'18 to Mar'21 and as I stated earlier Jupiter is not giving full result as it is in the sign of Great Enemy. Jupiter has influence on profession.

Rahu is in the house of Saturn and it is situated in your 5th house (intelligence & child) and Saturn which owns this house is sitting at 12th position (loss). Rahu has an influence on the 9th house (luck), 11th house (gain) and 1st house (self). So, this position of Rahu is bad for progeny/kid and it is also not letting you have the support of Luck and so you gain is less.

Due to above placement and periods of above two planets, you are struggling very hard in matters related to these planets. Your struggle has increased from Oct'18.

Q2.

What will be the right time to put efforts for higher education (MBA)?

I don't see any combination down in next four years which support dream of MBA. The reason behind is ongoing Rahu period and upcoming Saturn period. Positions of these planet does not support higher education. Well astrology has a boundary/limit, if you are really passionate about MBA, you should keep trying.

Q3.

What path to take and when to put extreme efforts to gain success? I am trying and failing every time?

Sub period of Jupiter and Venus under Saturn Mahadasha will prove beneficial for you and you will receive quite good result for your effort. You should put good effort in these two periods. In other period, you need to take precaution by avoiding any risk such as job change etc.

Recommendations

Saturn is a planet who gives the result on the basis of our past activities, one should be careful about how we treat with our servants and people working in lower strata of society. Saturn rewards those who do social work and help extremely poor people.

My advice would be doing some charity work in disabled school or for poor kids. You should perform rituals of donating black cloth and other items in Shani Mandir on Saturdays.

Positives & Negatives

1. You should take good care of your health, there can be a problem of (obesity/sugar/bp) after Mar'21
2. Aspect of Jupiter is beneficial for you, you will prosper in Saturn – Jupiter period.

Yantra Remedy

1. Jupiter Yantra - Installation and daily worshipping of this yantra.

Gemstone Remedy

1. Yellow Sapphire (Pukhraj) - You should wear Pukhraj in your index finger
